10 (a) The North Carolina State Board of Dental Examiners may issue a license by

13 has the required education, training, and qualifications, is in good standing with the licensing  
14 jurisdiction, has passed satisfactory examinations of proficiency in the knowledge and practice  
15 of dentistry as determined by the Board, and meets all other requirements of this section and rules  
16 adopted by the Board. The Board may conduct examinations and interviews to test the  
17 qualifications of the applicant and may require additional information that would affect the  
18 applicant's ability to render competent dental care. The Board may, in its discretion, refuse to  
19 issue a license by credentials to an applicant who the Board determines is unfit to practice  
20 dentistry.

21 (a1) The North Carolina State Board of Dental Examiners shall issue a license by

### 12 **PART V. MEDICAID HEALTH OUTCOMES PROGRAMS STUDY**

13 **SECTION 7.(a)** The Department of Health and Human Services (Department) shall  
14 conduct a study to propose two coordinated quality outcomes programs that are consistent with  
15 subdivision (7) of Section 4 of S.L. 2015-245 requiring that the State's transformed Medicaid  
16 delivery system be built on defined measures and goals for risk-adjusted health outcomes and  
17 quality of care subject to specific accountability measures. One program shall be designed to  
18 apply to all acute care hospitals participating in the State Medicaid program. Another program  
19 shall be designed to apply to all Medicaid Prepaid Health Plans in the State. Components to be  
20 included in the proposed programs are as follows:

- 21 (1) The programs shall be designed to reduce unnecessary and inappropriate  
22 service utilization by providing hospitals and Prepaid Health Plans with  
23 information and incentives to reduce potentially avoidable hospital  
24 admissions, hospital readmissions, and emergency department visits.
- 25 (2) The programs shall be designed to generate sustainable savings within the  
26 Medicaid program that are quantifiable within a three-year period following  
27 implementation.
- 28 (3) The programs shall be initiated with comprehensive analysis of State  
29 Medicaid databases to identify potentially avoidable events causing waste in  
30 the Medicaid system. The Department shall establish the methodology for  
31 identifying potentially avoidable events, that is, to the extent possible,  
32 consistent with methodologies utilized by other state Medicaid programs or  
33 commercial payers. For hospitals and Prepaid Health Plans, potentially  
34 avoidable events shall include potentially avoidable hospital readmissions and  
35 complications. For Prepaid Health Plans, potentially avoidable events shall  
36 also include potentially avoidable hospital admissions and emergency  
37 department visits.
- 38 (4) The programs shall include the establishment of benchmarks for measurement  
39 of outcomes and cost savings related to potentially avoidable events for each  
40 program, based on the incidence and cost of potentially avoidable events  
41 identified through the comprehensive analysis.
- 42 (5) The programs shall include the establishment of a potentially avoidable events  
43 reporting system for hospitals and Prepaid Health Plans and monitoring of this  
44 system.
- 45 (6) The programs shall include financial incentives related to the reduction of  
46 potentially avoidable events by hospitals and Prepaid Health Plan utilizing  
47 value-based payments consistent with sub-subdivision a. of subdivision (5) of  
48 Section 5 of S.L. 2015-245.

49 **SECTION 7.(b)** No later than October 1, 2018, the Department shall submit a report  
50 to the Joint Legislative Oversight Committee on Medicaid and NC Health Choice containing the

1 proposed programs required by this section. This report shall also contain the following  
2 information:

- 3 (1) Specific, measurable details of each component of the programs, including the  
4 time frame for implementation of each component and a description of the  
5 measurable improvement in health outcomes that the programs are designed  
6 to achieve.
- 7 (2) An estimate of the cost to implement the programs and a description of all  
8 other resources that would be needed to implement the programs.
- 9 (3) A projected estimate of the savings that would be generated as a result of the  
10 achievement of the proposed outcomes and quality measures included in the  
11 two programs. This estimate shall (i) identify the portion of savings that is  
12 projected to be achieved by the State and (ii) identify how the estimated  
13 savings will be achieved in addition to anticipated savings associated with the  
14 management functions to be performed by Prepaid Health Plans under the  
15 transformed Medicaid system.
- 16 (4) Any anticipated barriers to implementation of the programs.
- 17 (5) A detailed description of any other initiatives or programs the Department is  
18 planning that will accomplish similar objectives.
- 19
