"SECTION 1.(b) G.S. 143-215.27 reads as rewritten:

"§ 143-215.27. Repair, alteration, or removal of dam.

(e) The Department shall not withhold approval of an application for repair or alteration of a phased compliance eligible dam based solely on the fact that the proposed repair or alteration will not bring the dam into full compliance with the requirements of the Dam Safety Law of 1967 (Law) and rules adopted to implement the Law, provided the applicant meets all of the following conditions with respect to its proposed repair or alteration project:

- (1) The project will not increase the height or impoundment capacity of the dam.
(2) The project will not increase the risk to human life or property.

(f) Nothing in this section shall be construed to restrict the Department's authority to approve applications to repair or modify dams that do not meet the criteria of a phased compliance eligible dam."
