NORTH CAROLINA GENERAL ASSEMBLY

2023 Session

Legislative Actuarial Note – Health Benefits

Short Title:	2023 Appropriations Act.
Bill Number:	House Bill 259
	(Proposed Conference Committee Substitute H259-PCCS50044-MHxr-6)
Sman con(a).	

Sponsor(s):

SUMMARY TABLE

ACTUARIAL IMPAC	<u>FY 2023-24</u>	<u>FY 2024-25</u>	r-6 (\$ in thou: <u>FY 2025-26</u>	<u>FY 2026-27</u>	<u>FY 2027-28</u>
State Impact State Health Plan Net Loss	2,050	4,300	4,500	4,700	4,900
NET STATE IMPACT	2,050	4,300	4,500	4,700	4,900

The State Health Plan's Net Loss is projected to increase by the amount shown above, decreasing the cash reserves of the Plan. Any deterioration in Plan financials does not directly translate to an increase in State appropriations in the short-run, but is likely to increase appropriations in the long-run. Roughly 57% of premiums paid to the Plan are derived from the General Fund.

In addition to the impact above, the bill is expected to shift contributions to pay for retiree medical benefits among employing entities. See below for further details.

ACTUARIAL IMPACT SUMMARY

Sections 4.10 and 39.29 have potential actuarial impacts on the State Health Plan (Plan).

<u>Section 4.10</u>: Allows the University of North Carolina Health Care System, ECU Medical Faculty Practice Plan, and ECU Dental School Clinical Operations to enroll all of their new employees, and possibly all of their current employees, in a comprehensive health benefit plan offered by the affected employers instead of enrolling them in the Plan.

The bill also closes the Teachers' and State Employees' Retirement System (TSERS) to new hires of the affected employers on or after January 1, 2024 and states that members of TSERS or the Optional Retirement Program (ORP) at the affected employers prior to that date remain members unless they make a one-time, irrevocable election to cease membership in favor of a similar, but unspecified, benefit offered by the employers. Employees of the affected employers hired on or after January 1, 2024 would participate in ORP; participate in a similar, but unspecified benefit; or have a choice between these two programs. Employers of TSERS and ORP members make contributions to the Retiree Health Benefit Fund (RHBF) as a percentage of their employees' compensation to pay for retiree medical benefits. This analysis assumes that the affected

employers would not make such contributions on the compensation of employees enrolled in a new retirement benefit program.

The Segal Company, the consulting actuary for the Plan, estimates that allowing UNCHCS to remove its active employees from the Plan will result in a lost subsidy of \$4.1 million in FY 2023-24 (if it were effective July 1), \$4.3 million in FY 2024-25, and \$4.5 million in FY 2025-26.

Hartman & Associates, the consulting actuary for the General Assembly, estimates that allowing UNCHCS to remove its active employees from the Plan will result in an annual lost gain of \$2 million to \$4 million.

Both actuaries estimate that closing TSERS and potentially ORP to new hires and allowing existing employees to choose an alternative retirement program will have no immediate material impact on the State's Other Post-Employment Benefit (OPEB) liability, but note that the State currently funds retiree medical benefits primarily on a pay-as-you-go basis, so contributions on behalf of current employees are in fact used largely to pay for healthcare for current retirees. The loss of these future contributions will mean that other employing entities and the tax revenue or other resources used to support those entities will bear some of the burden of paying for retiree medical benefits for the existing employees and retirees. As of June 30, 2022, the Net OPEB Liability related to UNCHCS was \$1.1 billion. Hartman & Associates estimates the shift in payments to offset this liability at \$5 million in FY 2023-24, increasing to \$35 million by FY 2034-35.

<u>Section 39.29</u>: Authorizes, but does not require, the Plan to offer to pay or reimburse premiums for alternative coverage for retirees; for example, coverage on the Affordable Care Act exchange. The retiree would be able to choose to accept the alternative coverage or remain in the Plan. Both actuaries state that the savings from this section cannot be estimated.

ASSUMPTIONS AND METHODOLOGY

The actuarial analyses used by each respective consulting actuary are on file with the Fiscal Research Division. Copies of each respective consulting actuary's analysis, including assumptions, are also attached to the original copy of this Legislative Actuarial note.

Summary Information and Data about the State Health Plan (Plan)

The Plan administers health benefit coverage for active employees from employing units of State agencies and departments, universities, local public schools, and local community colleges. Eligible retired employees of authorized employing units may also access health benefit coverage under the Plan. Eligible dependents of active and retired employees are authorized to participate in the Plan provided they meet certain requirements. Employees and retired employees of selected local governments and charter schools may also participate in the Plan under certain conditions.

The State finances the Plan on a self-funded basis and administers benefit coverage under a Preferred Provider Option (PPO) arrangement, with the exception of many Medicare-eligible retirees who are in fully-insured Medicare Advantage plans. The Plan's receipts are derived through premium contributions, investment earnings and other receipts. Premiums for health benefit

coverage are paid by (1) employing agencies for active employees, (2) the Retiree Health Benefit Fund for retired employees, and (3) employees and retirees who participate in a plan with a nonzero premium or who elect dependent coverage. Benefit and premium changes are typically effective on January 1. The Plan's PPO benefit design includes two alternative benefit levels listed below:

- 1) The 70/30 Plan that offers higher out-of-pocket requirements in return for lower employee and retiree premiums, and
- 2) The 80/20 Plan that offers lower out-of-pocket requirements with higher employee and retiree premiums.

Medicare-eligible retirees are offered three alternative plans:

- 1) The 70/30 Plan as coverage secondary to Medicare for medical services plus a pharmacy benefit plan,
- 2) "Base" Medicare Advantage Prescription Drug Plan (MA-PDP) from Humana, that applies in-network out-of-pocket requirements at out-of-network providers
- 3) "Enhanced" MA-PDP, identical to the "Base" MA-PDP, except with lower co-pays and higher retiree premiums

The following tables provide a summary of the most common monthly premium rates for the Plan in 2023:

Active Employees and Non-Medicare Retirees (if Fully Subsidized)

		Employee/R	letiree Share
	Employer	Complete	Do Not
	Share	Tobacco	Complete
		Attestation	Attestation
70/30 Plan	\$585	\$25 *	\$85 *
80/20 Plan	\$585	\$50	\$110

* \$0 for Non-Medicare Retirees

Medicare Retirees (if Fully Subsidized)

Medicare Advantage Plans		
	Employer	Employee/Retiree Share
	Share	
MA-PDP Base Plan	\$472	\$0
MA-PDP Enhanced Plan	\$472	\$73
Alternate Plan		
	Employer	Employee/Retiree Share
	Share	
Traditional 70/30 Plan	\$472	\$0

Dependents (paid by employee/retiree in addition to premiums above)

	•	nts are Non- icare	One or Mo	re Medicare D	ependents
	70/30 Plan	80/20 Plan	MA-PDP	MA-PDP	70/30
			Base	Enhanced	Plan
Employee/Retiree +	\$193	\$255	\$4	\$73	\$155
Children					
Employee/Retiree +	\$565	\$650	\$4	\$73	\$425
Spouse					
Employee/Retiree +	\$573	\$670	\$8	\$146	\$444
Family					

The employer share of premiums for retirees is paid from the Retiree Health Benefit Fund. During FY 2022-23, employers contribute 6.89% of active employee payroll into the Fund. Total contributions for the year are projected to be approximately \$1.4 billion.

Financial Condition

Projected Results for CY 2023 and CY 2024 – The following summarizes projected financial results for 2023 and 2024, based on financial experience through December 2022. The projection assumes

a 6.5% annual claims growth trend for medical claims, a 10.0% trend for pharmacy claims, a 7.0% trend for pharmacy rebates, benefit provisions and member-paid premiums as adopted by the Board for 2023, and 4% employer premium increases in FY 2023-24.

	(\$ m ²	illions)
	Projected	Projected
	CY 2023	CY 2024
Beginning Cash Balance	\$849.1	\$679.0
Receipts:		
Net Premium Collections	\$3,945.1	\$4,261.1
Medicare Subsidies	\$11.0	\$9.8
Investment Earnings	\$6.3	\$5.3
Total	\$3,962.4	\$4,276.2
Disbursements:		
Net Medical Claim Payment Expenses	\$2,973.0	\$3,200.8
Net Pharmacy Claim Payment Expenses	\$998.3	\$1,046.8
Medicare Advantage Premiums	\$18.1	\$18.7
Administration and Claims-Processing Expenses	\$143.0	\$148.8
Total	\$4,132.4	\$4,415.1
Net Operating Income (Loss)	(\$170.0)	(\$138.9)

Of the premiums paid in CY 2023, an estimated \$2.7 billion is derived from General Fund sources and an estimated \$0.1 billion is derived from Highway Fund sources.

Other Post Employment Benefit (OPEB) Liability

As of June 30, 2022, the State and related units of government had a Total OPEB Liability of \$26.6 billion and Plan Fiduciary Net Position (Assets) of \$2.8 billion, for a Net OPEB Liability of \$23.7 billion. Actual contributions for the year ending June 30 were \$1,197 million, far less than the actuarially determined contributions of \$2,084 million.

Other Information

Additional assumptions include Medicare benefit "carve-outs," cost containment strategies including prior approval for certain medical services, utilization of the State Health Plan Network of providers, case and disease management for selected medical conditions, mental health case management, coordination of benefits with other payers, a prescription drug benefit manager with manufacturer rebates from formularies, fraud detection, and other authorized actions by the State Treasurer, Executive Administrator, and Board of Trustees to manage the Plan to maintain and improve the Plan's operation and financial condition where possible. Medical claim costs are expected to increase at a rate of 6.5% annually in the short-term and pharmacy claim costs are

Trustees. The active population is projected to decrease by 0.3% per year, the pre-Medicare retiree population is projected to decrease by 2.5% per year and the Medicare-eligible retiree population is projected to increase by 3% per year.

For Section 4.10, both actuaries used demographic and Plan claims data on the roughly 10,000 current employees of UNCHCS with total compensation of roughly \$740 million. Data for the affected employers at East Carolina University (ECU) was not available. However, we estimate that the count of affected employees at ECU is less than 20% of the count of affected employees at UNCHCS. Both actuaries assumed that UNCHCS would establish an alternative comprehensive health benefit plan and immediately enroll all of its employees in that plan instead of the Plan. Section 4.10 is unclear about when the alternative plan would be offered and whether it would be offered to all employees or only a subset, for example those employees who are participating in new retirement benefit programs.

For the OPEB impact of Section 4.10, Hartman & Associates assumed that all current TSERS participants would elect to remain in TSERS, half of current ORP members would elect to remain in ORP, and all other UNCHCS employees would participate in an alternative retirement benefit program offered by UNCHCS. Hartman & Associates assumed 1,000 new UNCHCS hires each year, distributed by age based on current year new hires and an average new hire salary in FY 2023-24 of \$46,000. They also assumed that the State would contribute 50% of the OPEB actuarially determined employer contribution each year and that payroll would increase by 1% per year.

Enrollment as of January 1, 2023

-Actuarial Note, The Segal Company, Senate Bill 743, "Transformational Investments in NC Health", April 24, 2023, original of which is on file with the State Health Plan for Teachers and State Employees and the General Assembly's Fiscal Research Division.

-Actuarial Note, Hartman & Associates, "Senate Budget Sections 39.29 and 39.30", May 11, 2023, original of which is on file in the General Assembly's Fiscal Research Division.

-Actuarial Note, The Segal Company, "State Health Plan Salaries and Benefits Special Provisions 2023-SHP-S2(H39.29)i and 2023-SHP-S1-P; Alternative Health Benefit Coverage And State Health Plan Hospital Savings Initiative", May 12, 2023, original of which is on file with the State Health Plan for Teachers and State Employees and the General Assembly's Fiscal Research Division.

LEGISLATIVE ACTUARIAL NOTE – PURPOSE AND LIMITATIONS

This document is an official actuarial analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described above. This document only addresses sections of the bill that have projected direct actuarial impacts on State employee health benefit programs and does not address sections that have no projected actuarial impacts.

CONTACT INFORMATION

Questions on this analysis should be directed to the Fiscal Research Division at (919) 733-4910.
