guardian, or personal representative, (iii) the medical assistance beneficiary's heirs, and (iv) the 1 2 administrator or executor of the medical assistance beneficiary's estate. 3 Notwithstanding any other provisions of the law, to the extent of payments under this Part, 4 the State shall be subrogated to all rights of recovery, contractual or otherwise, of a beneficiary 5 against any person. Any claim brought by a medical assistance beneficiary against a third party 6 shall include a claim for all medical assistance payments for health care items or services 7 furnished to the medical assistance beneficiary as a result of the injury or action, hereinafter 8 referred to as the "Medicaid claim." Any claim brought by a medical assistance beneficiary 9 against a third party that does not state the Medicaid claim shall be deemed to include the 10 Medicaid claim. If the beneficiary has claims against more than one third party related to the same injury, then any amount received in payment of the Medicaid claim related to that injury 11 12 shall reduce the total balance of the Medicaid claim applicable to subsequent recoveries related 13 to that injury. 14 The Department may designate one or more PHPs to receive all or a portion of payments due under this section to the Department for the Medicaid claim by sending a notice of designation 15 to (i) the beneficiary who has the claim against the third party and (ii) any PHP designated in the 16 17 notice. As used in this section, the term "designated PHP" refers to a PHP designated in the notice 18 of designation under this subsection. 19 If the amount of the Medicaid claim does not exceed one-third of the medical (a1) 20 assistance beneficiary's gross recovery, it is presumed that the gross recovery includes 21 compensation for the full amount of the Medicaid claim. If the amount of the Medicaid claim 22 exceeds one-third of the medical assistance beneficiary's gross recovery, it is presumed that 23 one-third of the gross recovery represents compensation for the Medicaid claim. 24 (a2) A medical assistance beneficiary may dispute the presumptions established in 25 subsection (a1) of this section by applying to the court in which the medical assistance 26 beneficiary's claim against the third party is pending, or if there is none, then to a court of 27 competent jurisdiction in this State, for a determination of the portion of the beneficiary's gross 28 recovery that represents compensation for the Medicaid claim. An application under this 29 subsection shall be filed with the court and served on the Department pursuant to the Rules of 30 Civil Procedure no later than 30 days after the date that the settlement agreement is executed by 31 all parties and, if required, approved by the court, or in cases in which judgment has been entered, 32 no later than 30 days after the date of entry of judgment. If a PHP made payments on behalf of a 33 Medicaid beneficiary that are included in the Medicaid claim, then the application shall also be 34 served on that PHP within the same time frame in which service is required on the Department. 35 The court shall hold an evidentiary hearing no sooner than 60 days after the date the action was 36 filed. All of the following shall apply to the court's determination under this subsection: 37 (1)The medical assistance beneficiary has the burden of proving by clear and 38 convincing evidence that the portion of the beneficiary's gross recovery that 39 represents compensation for the Medicaid claim is less than the portion 40 presumed under subsection (a1) of this section.

41 42 presumed under subsection (a1) of this section.
(2) The presumption arising under subsection (a1) of this section is not rebutted solely by the fact that the medical assistance beneficiary was not able to recover the full amount of all claims.

43 If the beneficiary meets its burden of rebutting the presumption arising under 44 (3) 45 subsection (a1) of this section, then the court shall determine the portion of 46 the recovery that represents compensation for the Medicaid claim and shall 47 order the beneficiary to pay the amount so determined to the Department 48 Department, or designated PHP, in accordance with subsection (a5) of this 49 section. In making this determination, the court may consider any factors that 50 it deems just and reasonable.
