# HOUSE BILL 31: 0.00 Alcohol Restriction-All DWI

2015-2016 General Assembly

<b>Committee:</b>	House Judiciary II	<b>Date:</b>	March 3, 2015
<b>Introduced by:</b>	Rep. Jackson	<b>Prepared by:</b>	Susan Sitze
<b>Analysis of:</b>	PCS to First Edition H31-CSSA-2		Committee Counsel

**SUMMARY:** *The Proposed Committee Substitute (PCS) for House Bill 31 would require a 0.00 alcohol concentration restriction on all restoration of licenses revoked for an impaired driving offense.*

**CURRENT LAW:** When a person's driver's license is revoked after an impaired driving conviction, upon restoration of the license an alcohol concentration restriction is placed on the person's driver's license. Violation of that restriction results in an additional one year revocation of the license. Under current law that restriction is as follows:

- 0.04 for a first restoration for a "regular" DWI offense (or any substantially similar offense in another state or in federal court).
- 0.00 for a second or subsequent restoration for a "regular" DWI offense (or any substantially similar offense in another state or in federal court).
- 0.00 for any restoration for DWI in a commercial vehicle, habitual DWI, driving while less than 21 years old after consuming drugs or alcohol, felony death by vehicle, manslaughter or negligent homicide resulting from impaired driving, or after a revocation for violating an alcohol concentration restriction ( any substantially similar offense in another state or in federal court).

Some persons convicted of impaired driving offenses are required to drive only vehicles with an ignition interlock system installed, and as part of that requirement are given an alcohol concentration restriction for the ignition interlock. Violation of that restriction by blowing a greater alcohol concentration on the ignition interlock is charged as driving while license revoked. Under current law that restriction is as follows:

- 0.04 if the only reason an ignition interlock system is required is because the person had an alcohol concentration of 0.15 or more at the time of the underlying impaired driving offense.
- 0.00 if the ignition interlock is required because the person has previous impaired driving convictions within 7 years or the person was sentenced at the Aggravated Level One punishment level for the underlying impaired driving offense.
- 0.00 if the ignition interlock is required because the person had an alcohol concentration of 0.15 or more AND the underlying conviction was for DWI in a commercial vehicle, driving while less than 21 years old after consuming alcohol or drugs, felony death, felony aggravated serious injury or felony serious injury by motor vehicle, or manslaughter or negligent homicide resulting from impaired driving.

# House Bill 31

*Page 2*

## **BILL ANALYSIS:**

The PCS to **House Bill 31** would amend the two instances where the alcohol concentration restriction is 0.04 to make the alcohol concentration restrictions for both ignition interlock systems (Section 1 of the bill) and restoration of a driver's license after an impaired driving conviction (Section 2 of the bill) 0.00 in all cases.

**EFFECTIVE DATE:** This act becomes effective July 1, 2016, and applies to offenses committed on or after that date.
