CURRENT LAW: S.L. 2009-52, as amended by S.L. 2013-70 and S.L. 2013-270, authorizes Alamance, Mecklenburg, Pitt, and Wake Counties to establish a multidisciplinary Domestic Violence Fatality Prevention and Protection Review Team. The Team's purpose is to identify and review domestic violence-related deaths, and facilitate communication among the various agencies and organizations involved in domestic violence cases, with the goal of preventing future fatalities. The Review Team consists of a lead agency, designated by the county commissioners, that has experience working with victims of domestic violence and representatives of public and nonpublic agencies in the community that provide services to victims or families of domestic violence. Members of the Review Team include representatives from law enforcement, district attorneys, county social services and healthcare departments, schools, and survivors of domestic violence, among others.

Review Teams report every three years to the local board of county commissioners, the North Carolina Domestic Violence Commission, and the Governor's Crime Commission on the Team's findings and activities.
