

HOUSE BILL 258: Expand Eligibility for Utility Account.

2019-2020 General Assembly

Committee:	House Finance. If favorable, re-refer to Rules, Calendar, and Operations of the House	Date:	March 27, 2019
Introduced by:	Reps. Boles, McNeill	Prepared by:	Greg Roney Staff Attorney
Analysis of:	PCS to Second Edition H258-CSTM-4		

OVERVIEW: *The Proposed Committee Substitute (PCS) for House Bill 258 would expand the counties eligible for grants from the Utility Account from the 80 most-distressed counties under the tier system to any county with total employment of less than 500,000. Currently, only Wake and Mecklenburg counties have employment of over 500,000.*

[As introduced, this bill was identical to S158, as introduced by Sen. McInnis, which is currently in Senate Rules and Operations of the Senate.]

CURRENT LAW: G.S. 143B-437.08 ranks counties into 3 tiers based on 4 factors: (1) average unemployment rate for the most recent 12 months for which data are available; (2) median household income for the most recent 12 months for which data are available; (3) percentage growth in population for the most recent 36 months for which data are available; and (4) adjusted property tax base per capita for the most recent taxable year.

Counties are assigned to a tier where the 40 most-distressed counties are designated Tier One; the next 40 counties are Tier Two; and the 20 least-distressed counties are Tier Three.

G.S. 143B-437.01 creates the Industrial Development Fund Utility Account (Utility Account) to provide funds to assist the local government units of the 80 most economically distressed counties (i.e., development tier one or two area under G.S. 143B-437.08) in creating jobs. The funds must be used for construction of or improvements to new or existing water, sewer, gas, telecommunications, high speed broadband, electrical utility distribution lines or equipment, or transportation infrastructure for existing or new or proposed buildings. The funds may not be used for any retail, entertainment, or sports projects. The program is governed by additional statutory rules and also by regulations adopted by the Department of Commerce.

G.S. 143B-437.56 diverts a percentage of a Job Development Investment Grant Program (JDIG) award to the Utility Account as follows: 25% of the award in tier three area, 10% of the award in a tier two area. Special rules apply to certain JDIG awards.

G.S. 143B-437.52 allocates the general \$35 million available JDIG grants as follows:

- Maximum of \$20,000,000 for projects in counties with total employment of 500,000 or more
- \$5,000,000 reserved for projects in counties ranked under G.S. 143B 437.08 in the highest 50%

Currently, only Wake and Mecklenburg counties have employment of over 500,000.

BILL ANALYSIS: The Proposed Committee Substitute (PCS) for House Bill 258 would expand the counties eligible for grants from the Utility Account from the 80 most-distressed counties (i.e., 40 tier-one
