

HOUSE BILL 646: ID Approval/Flex Muni One-Stop.

2019-2020 General Assembly

Committee:		Date:	April 11, 2019
Introduced by:	Reps. Lewis, Hawkins, Hardister, Russell	Prepared by:	Jessica Sammons and Erika Churchill, Staff Attorneys
Analysis of:	Second Edition		

OVERVIEW: *House Bill 646 would make the following changes to the elections law:*

- *Allow a tribal enrollment card to be used for voting identification purposes, regardless of whether the card contains an expiration date.*
- *Clarifies the approval process for student and employee identification cards being used for voting identification.*
- *Establishes a time period during which any student or employee identification card denied approval for use in the 2020 elections may be resubmitted for approval.*
- *Authorizes a county board of elections to set hours and days for early one-stop voting in odd-numbered years at less than 12 hours per day for 13 workdays.*
- *Authorizes a county a county that is bounded by the largest sound on the East Coast and the county seat is located at the intersection of two rivers, which divide the county to open up to two early one-stop sites with days and hours that vary from the county board of elections, or its alternate, and other additional one-stop sites in that county.*

CURRENT LAW & BILL ANALYSIS:

Tribal Enrollment Cards for Voting Identification:

Current Law. – G.S. 163A-1145.1 allows a valid and unexpired tribal enrollment card issued by a State or federal recognized tribe to be used as identification for voting in person.

Section 1 would allow a tribal enrollment card issued by a State or federal recognized tribe to be used for voting identification for voting in person, regardless of whether the card contains a printed expiration or issuance date.

Approval Process for Student and Employee Identification Cards:

Current Law. – G.S. 163A-1145.2 (Student ID cards) and G.S. 163A-1145.3 (Employee ID cards) provide that identification cards must be approved for use prior to being used for voting identification when voting in person. The process set forth includes information that must be compiled and submitted, under penalty of perjury, to the State Board. The State Board is to approve such ID's every four years, and produce a list of approved entities every four years.

Sections 2 and 3 would make the following changes to the State Board's process for approving student and employee identification cards for voting identification:

House Bill 646

Page 2

- Require the university, college, state or local government entity, or charter school to submit sufficient documentation to satisfy the State Board that certain criteria are met and will not knowingly be violated with regard to ID cards issued during the approval period.
- Amend the criteria the university, college, state or local government entity, or charter school must meet in order for the State Board to approve the use of ID cards issued by the entity, including:
 - To allow the ID cards to contain photos of students or employees that were obtained by the university, college, state or local government entity, or charter school, provided that the photo contains a frontal image that includes the individual's face and represents a clear, accurate likeness of the individual.
 - To require that access to the equipment for producing ID cards be restricted through security measures.
 - For colleges and universities, to require the college or university to provide either a hard copy or an electronic link to a document detailing the requirements related to voting, including identification for voting and residency requirements.
- Require the State Board to establish a schedule for submissions and approvals.
- Provide that approvals are valid for the period from January 1 of the odd-numbered year through December 31 of the even-numbered year. If a university, college, state or local government entity, or charter school has no changes the following approval period, the entity may submit a statement indicating no changes were made from the prior approval.
- Require the State Board to produce a list of approved universities, colleges, state or local government entities, and charter schools every two years.

Section 4 would extend the deadline for the State Board to approve identification cards issued by a university, college, state or local government entity, or charter school for voting identification from March 15, 2019 to November 1, 2019, for use in the 2020 elections. Section 4 would also extend the deadline for temporary rule-making on reasonable security measures to September 15, 2019.

Section 5 would clarify that for elections held in 2020 only, identification cards issued by a university, college, state or local government entity, or charter school may not be denied approval by the State Board solely due to a lack of a printed expiration date on the card.

Section 6 would provide that any identification card approved by the State Board by March 15, 2019, shall continue to be eligible for use in any election prior to December 31, 2022, without any further submission or approval. Any identification card denied approval by the State Board by March 15, 2019, would be able to submit a revised application for approval by November 15, 2019, with approval by the State Board by December 1, 2019, for use in the 2020 elections.

Early One-Stop Voting in Odd-Numbered Year Elections:

Current Law. – G.S. 163A-1300 provides that early one-stop voting begins no earlier than the third Wednesday before an election, and ends no later than 7:00 p.m. on the last Friday before the election. G.S. 163A-1303 establishes hours for one-stop voting sites to be open as follows:

- Monday through Friday – 7:00 a.m. until 7:00 p.m.
- Saturday and Sunday – CBOE are able to set hours for early voting on these days. If a CBOE opens a one stop voting site on Saturdays or Sundays during the early voting period, then all sites are required to open for the same hours uniformly throughout the county on Saturdays or Sundays, respectively.

House Bill 646

Page 3

- Each one stop voting site across the county must be open at that same location throughout the early voting period.
- Each day that the voting sites are open, the sites must be open uniformly throughout the county.

Sections 7 and 7.5 would authorize both of the following with respect to early one-stop voting locations and hours:

- Allow any county board of elections, by unanimous vote, for any odd-numbered election year, to propose a Plan for Implementation providing for early one-stop sites in that county. The Plan may specify the week days and hours on those week days of operation for the county board of elections for all elections conducted in that county for that odd numbered year, which may vary from Monday to Friday, 7:00 am – 7:00 pm. However, that county must provide for uniform location, days, and hours for all sites throughout the early one-stop voting period.
- Authorize a county board of elections in a county that is bounded by the largest sound on the East Coast and the county seat is located at the intersection of two rivers, which divide the county to open up to two early one-stop sites with days and hours that vary from the county board of elections, or its alternate, and other additional one stop sites in that county.

EFFECTIVE DATE: Effective when it becomes law.
