**BACKGROUND:** Prior to December 1, 2018, the following counties were required to perform emissions inspections: Alamance, Brunswick, Buncombe, Burke, Cabarrus, Caldwell, Carteret, Catawba, Chatham, Cleveland, Craven, Cumberland, Davidson, Durham, Edgecombe, Forsyth, Franklin, Gaston, Granville, Guilford, Harnett, Haywood, Henderson, Iredell, Johnston, Lee, Lenoir, Lincoln, Mecklenburg, Moore, Nash, New Hanover, Onslow, Orange, Pitt, Randolph, Robeson, Rockingham, Rowan, Rutherford, Stanly, Stokes, Surry, Union, Wake, Wayne, Wilkes and Wilson.

In 2013, the General Assembly directed the Department of Environment and Natural Resources to conduct a study to examine whether all of the counties covered under the emissions testing and maintenance program pursuant to G.S. 143-215.107A were needed to meet and maintain the current and proposed federal ozone standards in North Carolina. The final report was completed in 2016, and recommended elimination of 31 counties from the program. Subsequently, Section 3.5 of S.L. 2017-10 directed the Department of Environmental Quality to submit an amendment to North Carolina's State Implementation Plan to the USEPA for approval, based on the change to the motor vehicle emissions program with the proposed removal of 26 of the 31 recommended counties, which did not include Franklin, Lee, New Hanover, Onslow, and Rockingham.

The current list of counties required to conduct vehicles emissions testing became effective December 1, 2018.
