the salary schedule. High-need retired teachers cannot receive any State salary supplements or bonuses and could not move to higher salary steps on the salary schedule.

Local Salary Supplement: High-need retired teachers will receive any local salary supplements that are given to other employees of the local board of education.

Term of Contract: The contract between a local board of education and a high-need retired teacher cannot be for more than one school year.

Licensure Areas: The Superintendent of Public Instruction will identify and provide to local school administrative units (LEAs) a list of STEM and special education licensure areas that qualify for reemployment and the LEAs will make this available to high-need retired teachers. The Department of Public Instruction will certify to TSERS that a retiree is employed to teach as high-need retired teacher.

Private Letter Ruling: The State Treasurer will be required to seek a private letter ruling from the Internal Revenue Service regarding the provisions of this act. If the Internal Revenue Service determines that allowing retired teachers to return to work in certain high-need schools while receiving their retirement benefits would jeopardize the status of the TSERS under the Internal Revenue Code, then this act will be repealed 30 days from receipt of that determination by the State Treasurer. The State Treasurer will then notify all LEAs of the repeal and publicly notice the information on the website for the Department of State Treasurer. LEAs will then be required to notify all high-need retired teachers who are employed of the repeal.

Any beneficiary employed to teach by a LEA as a high-need retired teacher is not eligible to elect into a position that would lead him or her to be eligible to accrue any additional benefits under TSERS.

**EFFECTIVE DATE:** This act became effective July 1, 2019, and will expire June 30, 2021.
