

HOUSE BILL 309: Inspection of Low-Speed Vehicles.

**This Bill Analysis
reflects the contents
of the bill as it was
presented in
committee.**

2023-2024 General Assembly

Committee:	House Transportation. If favorable, re-refer to Rules, Calendar, and Operations of the House	Date:	April 26, 2023
Introduced by:	Rep. Iler	Prepared by:	Kellette Wade
Analysis of:	PCS to First Edition H309-CSBW-9		Committee Co-Counsel

OVERVIEW: *The Proposed Committee Substitute (PCS) for House Bill 309 would authorize licensed safety inspection stations that employ a licensed safety inspection mechanic to perform safety inspections for low-speed vehicles at a location other than the inspection station. It would also direct the Department of Transportation (DOT) to adopt rules to implement the act before July 1, 2024.*

CURRENT LAW: Currently, vehicle safety inspections must be performed by a licensed safety inspection mechanic at either a licensed safety inspection station or a licensed safety self-inspector's place of business (G.S. 20-183.4).

Low-speed vehicles are defined as four-wheeled electric vehicles with top speeds greater than 20 mph but less than 25 mph, and they must be registered and insured with the Division of Motor Vehicles (DMV) (G.S. 20-4.01(27)g., G.S. 20-50, and G.S. 20-309).

Any motor vehicle that is subject to registration with DMV must also receive a safety inspection in accordance with Article 3A of Chapter 20 of the General Statutes unless it is otherwise exempted (G.S. 20-183.2).

BILL ANALYSIS: Section 1 of the PCS for House Bill 309 would authorize licensed safety inspection stations that employ a licensed safety inspection mechanic to perform safety inspections for low-speed vehicles at a location other than the inspection station. Safety inspections for low-speed vehicles, whether performed at the station or at a different location, would be subject to the safety inspection requirements of Article 3A of Chapter 20 of the General Statutes.

Section 2 of the PCS would direct DOT to adopt rules to implement the act before July 1, 2024.

EFFECTIVE DATE: Section 1 of the bill would become effective July 1, 2024, and apply to low-speed vehicles inspected on or after that date. The remainder of the bill would be effective when it becomes law.
