**OVERVIEW:** *The Proposed Committee Substitute (PCS) for House Bill 564 would prohibit a payment card network from the following:*

- *Using a firearms code (i.e., merchant code that identifies a merchant as a firearms dealer) in connection with a payment card transaction involving a firearms merchant located in this State.*
- *Maintaining a record of individuals residing in this State who own firearms.*
- *Discriminating against a firearms merchant based solely on the assignment or nonassignment of a firearms code, including by refusing to serve on similar terms or declining a lawful payment card transaction.*

**BILL ANALYSIS:** The PCS for House Bill 564 would enact the Second Amendment Financial Privacy Act as Article 51 of Chapter 66.

The Act would prohibit 3 actions by a payment card network for transactions within the State:

- Identifying a transaction with a firearms merchant through a merchant code in connection with a payment card.
- Knowingly maintain a record of individuals who own firearms.
- Discriminating against a firearms merchant based solely on the assignment or nonassignment of a firearms code, including by refusing to serve on similar terms or declining a lawful payment card transaction.

The prohibitions are enforced in 2 ways:

- The Attorney General is authorized to investigate violations by payment card networks and assess a civil penalty of not more than \$10,000 for each violation.
- A firearms merchant, a customer, or an individual who was listed as owning a firearm have a right of action against the payment card network for violations of the prohibitions. In the civil action, the court may award any of the following damages: injunction, statutory damages of \$10,000 for each violation, costs, and attorneys' fees.

**EFFECTIVE DATE:** The PCS for House Bill 564 would be effective October 1, 2023.
