Section 4.5 of S.L. 2025-27 (House Bill 576) requires all health care facilities to provide a summary of a mammographic report to a patient in terms that can be understood by a layperson and that contains an assessment of the patient's breast density. It aligns State communication of mammographic breast density information to patients with federal guidelines.

This section became effective on June 27, 2025.
