Section 49 of S.L. 2026-59 (Senate Bill 445) requires local governments to prominently display their development fee schedules on their official websites and annually report their fee schedules to the Local Government Commission, who must compile a statewide report of local government fee schedules.

This section also requires each local government to provide an applicant for a development approval the current fee schedule and an estimate of all fees that may reasonably be assessed for the applicant's project within 10 business days after the applicant submits a completed application. When a development approval is issued, the local government must provide the applicant with a binding, final fee statement of exact fees due, which may not exceed the previously provided estimate. An applicant may bring a civil action in superior court to compel compliance with the requirements of this section.

This section became effective August 11, 2026.
